TIPS FOR A WINNING SUBMISSION

- Read the prompt closely and be sure to respond to each question.
- Save time to revise and proofread your piece at least once prior to submission.
- Be sure to demonstrate an understanding of the Bill of Rights; use reliable sources to conduct your research.
- Follow the submission guidelines closely! Make sure essays follow word count guidelines, videos and multimedia presentations adhere to maximum length of recording, and drawings/paintings are accompanied by an artist's statement.
- Make sure your contact information on the form is correct – otherwise, we can't notify you if you win!
- Check that written submissions are legible. Artwork and video submissions should show the entire work, with nothing being cut off.
